first look

When it comes to a first look, we encourage our couples to do what they feel is the best fit for their relationship and wedding day.

We completely admire couples who choose to wait to see each other until they walk down the aisle, however there are a few benefits to a first look you may want to consider.

We dive more into this topic on the [blog](#).

unplugged ceremony

We encourage you to consider asking your guests to be present during your ceremony. To read more about an unplugged ceremony, [check out this blog post](#).

all in the *details*

We love to capture all the details that help tell the story of your day. We encourage you set aside any items that you feel are significant to you, including but not limited to...

- wedding dress & hanger
- both rings & box
- shoes
- jewelry
- invitation suite (2-3)
- notes or vow books
- perfume
- extra florals & ribbon from your florist
- hair piece
- gifts
- welcome pages
- bow-tie / tie
- tie clip
- cuff links
- watch

family portraits

When it comes to family portraits, we want to be as efficient as possible so that your loved ones can enjoy the celebration. Everyone's family dynamics are unique so providing a detailed combination list helps us move with ease and take pressure off you.

We recommend sticking to immediate family and even consider these portraits pre-ceremony if you do a first look. For more information on stress free family portraits, [check out this blog post](#) or download our template [here](#).
